

```
#include <stdio.h>
int main()
{
    int num,rem,sum=0;
    printf("Enter the number");
    scanf("%d",&num);

    while(num>0)
    {
        rem=num%10;
        sum=sum+rem;
        num=num/10;
    }

    printf("The sum of digit is:%d",sum);

    return 0;
}
```
