

```
#include<stdio.h>
int main()
{
    int num,i,factorial=1;
    printf("Enter the number");
    scanf("%d",&num);

    for(i=1;i<=num;i++)
    {
        factorial=factorial*i;
    }
    printf("The factorial of %d is", factorial);
    return 0;
}
```
